What is Virtual Reality?
 20 years in the making & started by the military for training.

Where to buy?
 Most retail stores, amazon, phone companies sell varying levels of devices.

How Can You Make One?
 There are new 360 degree cameras but you or your students can make a simple one with a smart phone.

Using Cardboard Camera

1. Download Cardboard Camera App
2. Create your video by clicking the orange camera at the bottom of the app. It will direct you to slowly pan the environment.
3. Let it up load and then share.

Cardboard Camera
 By Google Inc.
